WHO ARE WE?

We have been working with all our power to research, develop and produce special-shaped aluminum extrusion profiles for 20 years. Kenan Metal continues to lead the sector with new technologies and high production capacity in order to meet all the demands of its customers in its production facilities in Tekirdağ Çorlu and stepping into new markets by continuously increasing the existing production capabilities by analyzing their expectations, requirements and needs, upgrading and investing in its existing facilities to the latest technological standards.

ALUMINUM INTO ART

In line with the changing and growing demands from its foundation to the present day, adopted it innovative production technologies in its field with the work of its expert R & D and R& D staff and by reflecting the developments experienced on its products, it has taken care to meet customer expectations by exceeding them

KENAN METAL®

Aluminum Into Art

Kenan Metal carries out production with 4 extrusion press machines of 1500 TONS (5 INCH), 1800 TONS (7 INCH), 2400 TONS (8 INCH) and 4000 TONS (10 INCH) in its modern production facility specially designed and built for the production of aluminum profiles. Awarded TSE, IATF, ISO 9001, ISO 14001, ISO 10002 and OHSAS 18001 certificates and reached an annual production capacity of 36.000 tons with its quality.

1 Mechanical Processing Center with an annual capacity of 5,000 tons and 2 Dyeing Plants with an annual production capacity of 20,000 tons have been certified by QUALICOAT.

TRANSITION TO PRODUCTION

In 2012, the foundation of being one of the leading production companies in the sector was laid with the adoption of an 8-inch aluminum extrusion press machine and the first paint shop.

ARTMINYUM BRAND

In 2017, the Artminyum brand was born with our principle of transforming aluminum into art on our architectural systems.

ESTABLISHMENT

In 2002, the company penetrated to the sector with aluminum trade.

In 2011, in line with the emerging requirements and demands of the awning and pergola sector, 3d blackout fabric started to be imported with the Sunart brand. Sunart has become able to meet all the needs of the sector with its high quality.

SUNART BRAND

In 2016 the 2nd extrusion press machine of 7 inches was commissioned.

DEVELOPMENT

THE THIRD EXTRUSION LINE

In 2019, the headquarters and factory were renovated as 50.000 m2. Our 3rd extrusion press machine of 5 inches was commissioned.

2019

THE FOURTH EXTRUSION LINE

In 2022 the 4th extrusion press machine of 19 inches was commissioned.

In this way, an annual production capacity of 36,000 tons was reached.

2022

2021

In 2021 the 2nd paint shop was commissioned.

With the construction of the 2nd paint shop, the annual production capacity reached 20,000 tons.

THE SECOND PAINT SHOP

2022

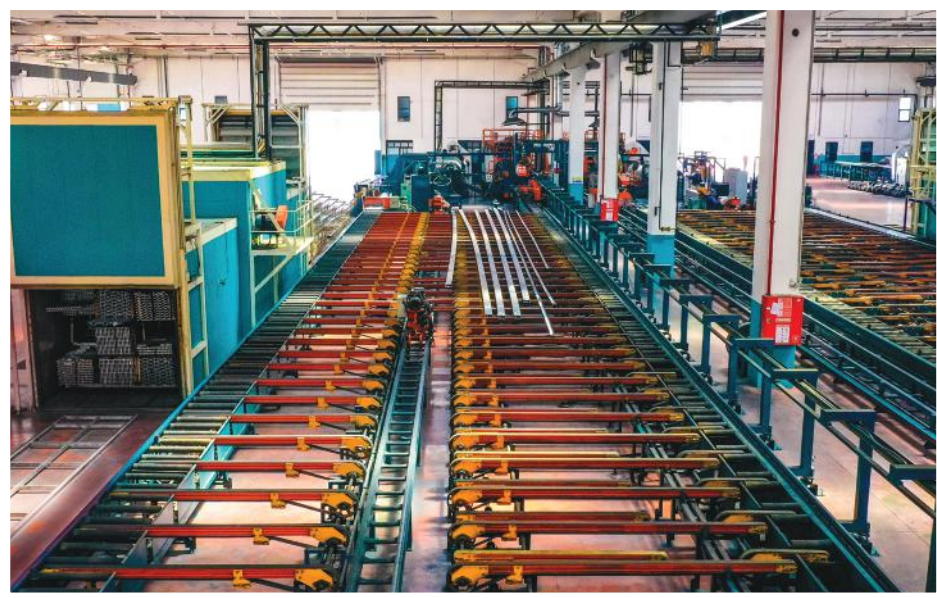

The billet plant with a capacity of 72,000 tons per year has started operating.

ERS Tube Motor, manufactured according to the needs of the sector with advanced R&D works was born in 2022.

ERS MOTOR

OUR MISSION

“

The main goal of our company, which is a pioneer in the sector is to ensure permanent domination in the international markets by closely following technological developments from an innovative point of view: increasing its production capacity day by day, by meeting all kinds of demands of stakeholders with its experience and background through its wide range of products that know no boundaries.

”

OUR VISION

Kenan Metal has been working with all our power to research, develop and produce special-shaped aluminum extrusion profiles for 20 years. We aim to add value to our sector in the domestic and international markets with our experience and capabilities in the aluminum sector.

ALL OVER THE WORLD

We do not recognize borders in exports with

80 Countries on
6 Continents

BILLET PRODUCTION FACILITY

Kenan Metal manufactures products in accordance with the needs of aluminum billet production and project with renewed high-tech systems. Billets produced in high quality and world standards offer advantages such as being used in extrusion molds for a long time, increasing productivity and reducing costs.

QUALITY RAW MATERIALS, EFFICIENT TECHNOLOGY

Kenan Metal, manufacturing products in the aluminum sector with more than 20 years of experience, works with quality raw materials, efficient technology, skillful workmanship and precise control principles. With all this accuracy, billet production is completed in our own structure from the beginning to the end.

HIGH QUALITY & EFFICIENCY

All products manufactured in the Billet production line are tested with high-precision measurement systems. For the produced aluminum billets, central cracks and capillary gap problems are checked with an accuracy rate of 100%. The finished billets are delivered to the Extrusion Plant.

Art
does not reflect what is visible;
it makes it visible.

Transformation of Aluminum into Art

Design

You imagine we produce! Our custom-made solutions with our R & D team provide the highest level of satisfaction both in terms of efficiency design.

Quality

Our products are manufactured in accordance with world standards, certified by quality certificates and offer a high service life.

Trustworthiness

Our production lines, which offer the possibility of production on the basis of the project, ensure that our products are extremely durable and reliable.

Mold Workshop

The molds used in profile production are manufactured with great care with very precise tolerances on high-tech CNC machine tools located on site in accordance with customer designs and needs.

Extrusion

Kenan Metal manufactures 1500 TONS (5 INCHES), 1800 TONS (7 INCHES), 2400 TONS (8 INCHES) and 4000 TONS (10 INCHES) with 4 extrusion press machines in a modern production facility designed and built specifically for the production of aluminum profiles. It has achieved an annual production capacity of 36,000 tons with its quality, which has been certified by TSE, IATF, ISO 9001, ISO 14001, ISO 10002 and OHSAS 18001.

Paint Workshop

Kenan Metal has a production capacity of 18,000 tons with a 12-meter electrostatic paint line. It carries out painting operations with a power and free z-type electrostatic paint booth with a capacity of 12,000 tons and a tunnel-type electrostatic paint line with a capacity of 7,200 tons.

Anodizing

Kenan Metal has a special anodizing coating line with a capacity of 6,000 tons. Anodizing of aluminum profiles in different colors and surface properties is carried out.

**POWER,
ART & ALUMINUM**

**KENAN METAL IS
BY YOUR SIDE IN
EVERY FIELD OF THE
SECTOR**

STAFF OF **400** PEOPLE

We Shape Aluminum

We manufacture products for many different sectors with aluminum, the second most widely used metal in the world. We realize the dreams of our customers in our production facilities, which have the ability to manufacture products for all kinds of orders.

We do our work with love and we build excellence every moment. We manufacture high quality aluminum extrusion products in our production facilities where we benefit from state of art technology and we deliver them to our customers all over the world.

“We Build Excellence Every Day”

ALUMINUM ARCHITECTURAL SYSTEMS

Aluminum architectural systems are systems that prioritize quality and make your life easier with useful options.

We produce high quality aluminum systems that will support architectural design on the exteriors of living spaces and offer the possibility of long use.

Focusing on the specifications and requirements of each building, we offer solutions that include innovative aluminum exterior products and respond to modern building needs.

DOOR AND WINDOW SYSTEMS

Aluminum-based door and window systems are often preferred because they can be produced in the most precise dimensions in addition to their characteristics such as being long-lasting, durable and aesthetic.

As Kenan Metal, we offer the highest quality aluminum door and window systems to our customers in line with their needs.

“

*We enlighten the future
with our experience...*

”

ROLLER SHUTTER AND SHUTTER SYSTEMS

“Designs that make life easier”

We produce quality roller shutter and shutter systems to meet customer needs in our production facilities equipped with the most up-to-date technology.

In addition to protecting them from cold in winter and heat in summer roller shutter and shutter systems that can be easily used in any season also gain the satisfaction of our customers with their aesthetic appearance.

KENAN METAL®
Aluminum Into Art

“Quality and Durable Production”
THAT YOU HAVE IMAGINED

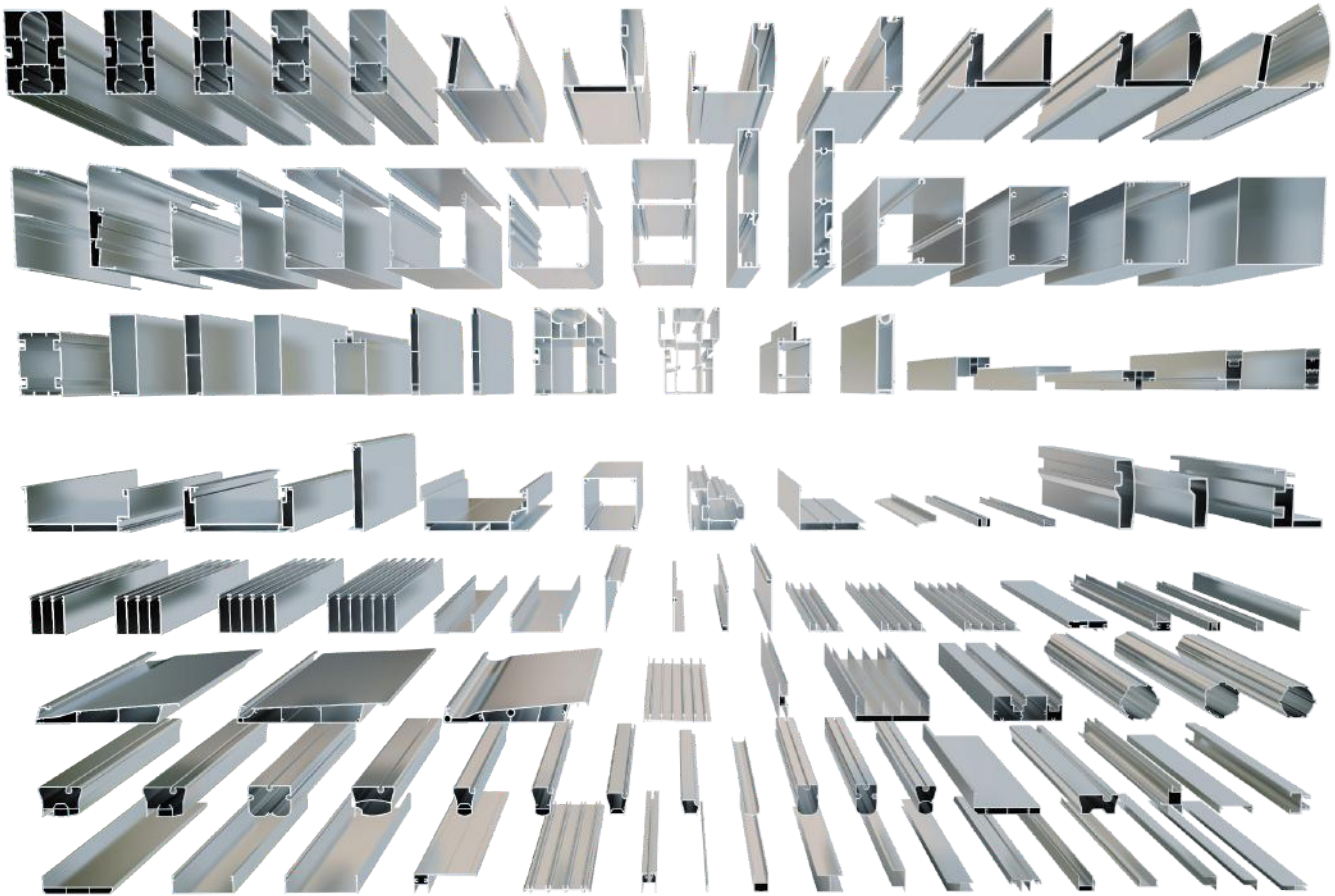

Kenan Metal, producing with the principle of absolute customer and employee satisfaction, develops with a constantly renewed contemporary vision that meets the current and future expectations of different sectors such as awning pergolas, construction and special profiles and adopts environmentally friendly production systems.

We have been working with all our power to research, develop and produce special-shaped aluminum extrusion profiles for 20 years.

THE BEST QUALITY
ALUMINUM PROFILES
WE PRODUCE

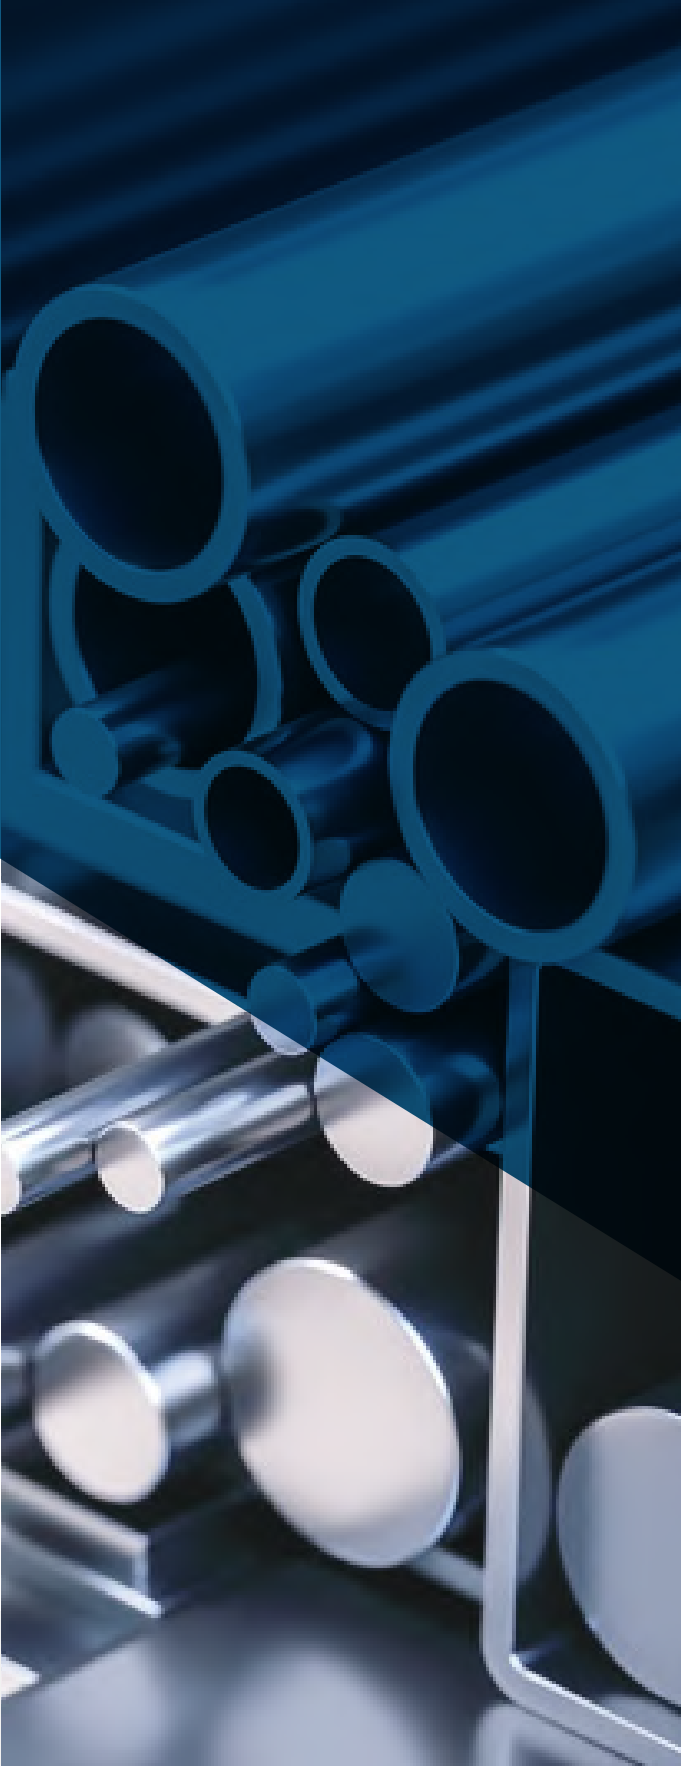

Solution-Oriented Productions

At Kenan Metal, we always produce solutions in accordance with customer designs and needs in our production processes. We manufacture products with high precision with great diligence with the high-tech production systems we have in our structure.

ALUMINUM EXTRUSION PRODUCTS

Kenan Metal has become one of the leading companies in the sector in terms of production process and production quality with the high efficiency principle it adopts in the production of aluminum extrusion products.

The aluminum extrusion products produced are used in many sectors. These high-quality products offer the possibility of a long service life and high strength.

PERGOLA SYSTEMS

Kenan Metal's pergola systems are systems designed to make your outdoor areas more convenient, stylish and comfortable. Our pergola systems emerge as the product of a permanent, aesthetic and minimalist effort that solves the problems of each season with its own special systems.

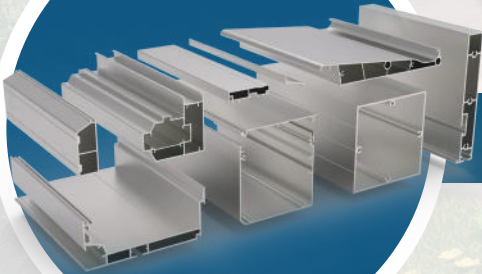

**WE SHAPE &
TRANSFORM
OUTDOOR SPACES**

KENAN METAL®

Aluminum Into Art

BIO-CLIMATIC SYSTEMS

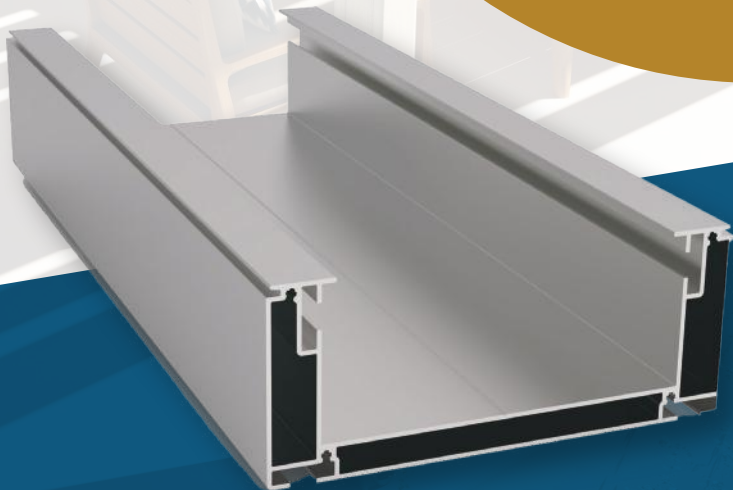

The most ideal integrated systems that expand living spaces and provide energy cost and comfort.

KENAN METAL®

Aluminum Into Art

Durable, heat-insulated automatic awning systems that can make your outdoor areas open-close.

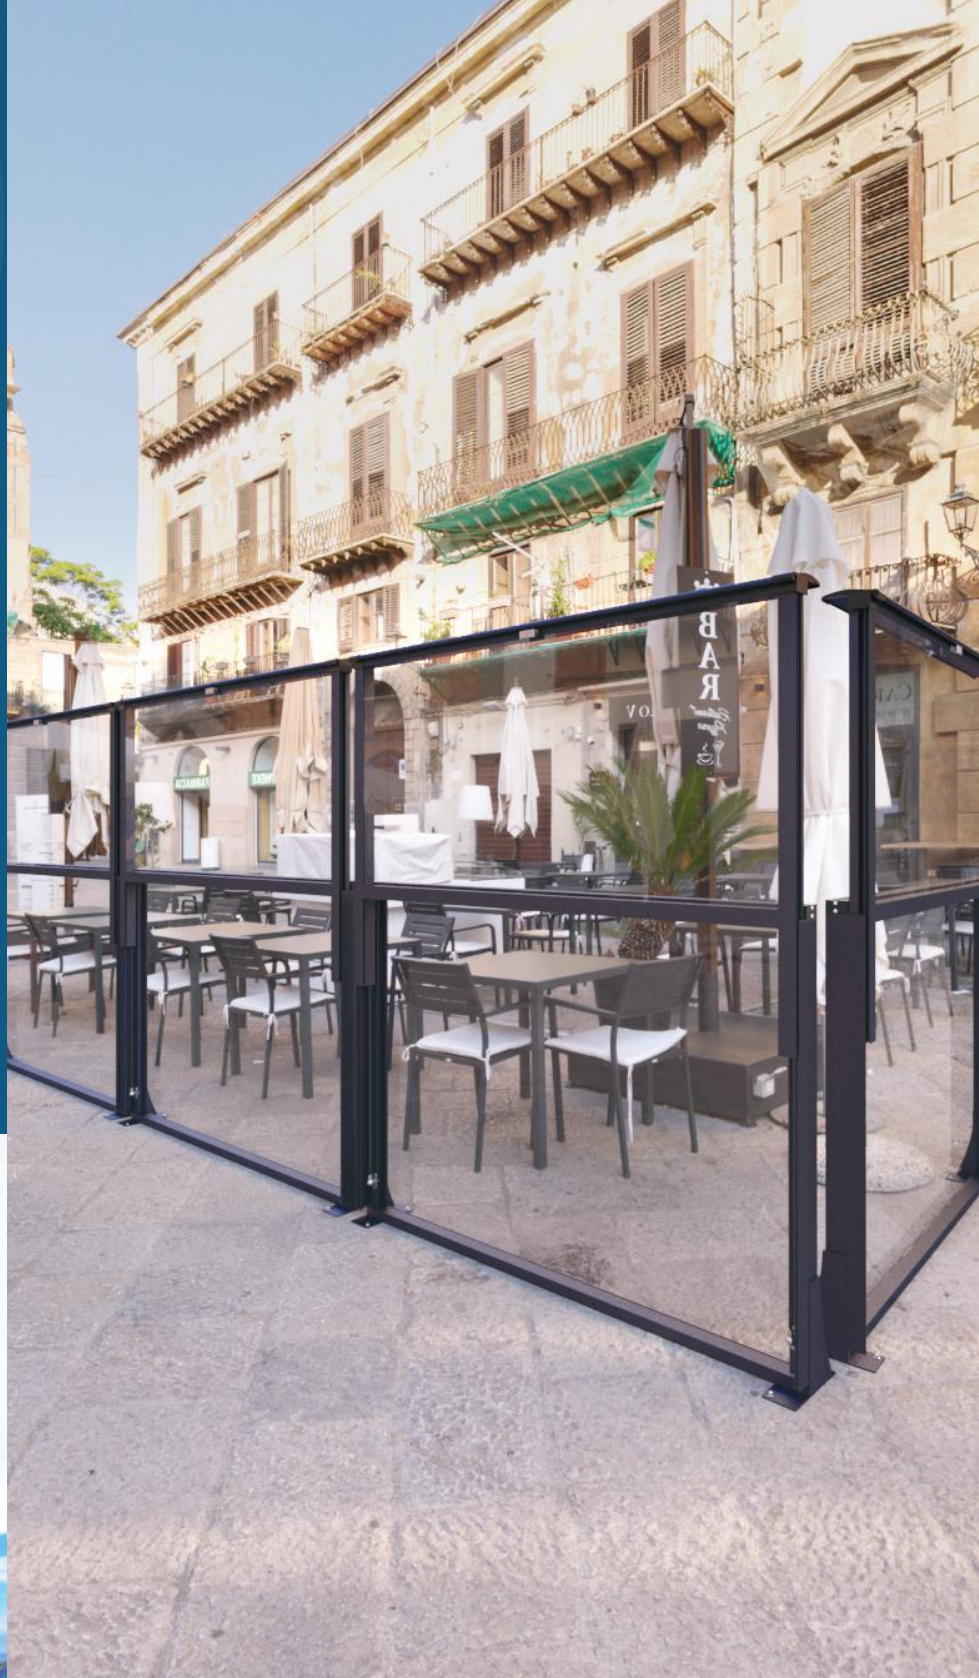

ROLLING ROOF SYSTEMS

WINTER GARDEN SYSTEMS

Feel the quality and comfort in every season thanks to Kenan Metal's winter garden systems. Capture the aesthetics with winter garden designs that reflect the quality your spaces deserve.

WIND BREAKER SYSTEMS

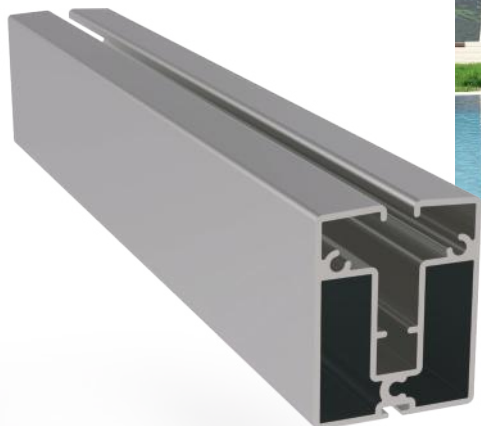

Protect yourself from the negative effects of the wind with Kenan Metal's wind breaker system and make your living spaces more comfortable. Thanks to carefully designed profiles, you do not compromise on aesthetics and quality while meeting the needs in your living spaces.

ZIP CURTAIN SYSTEMS

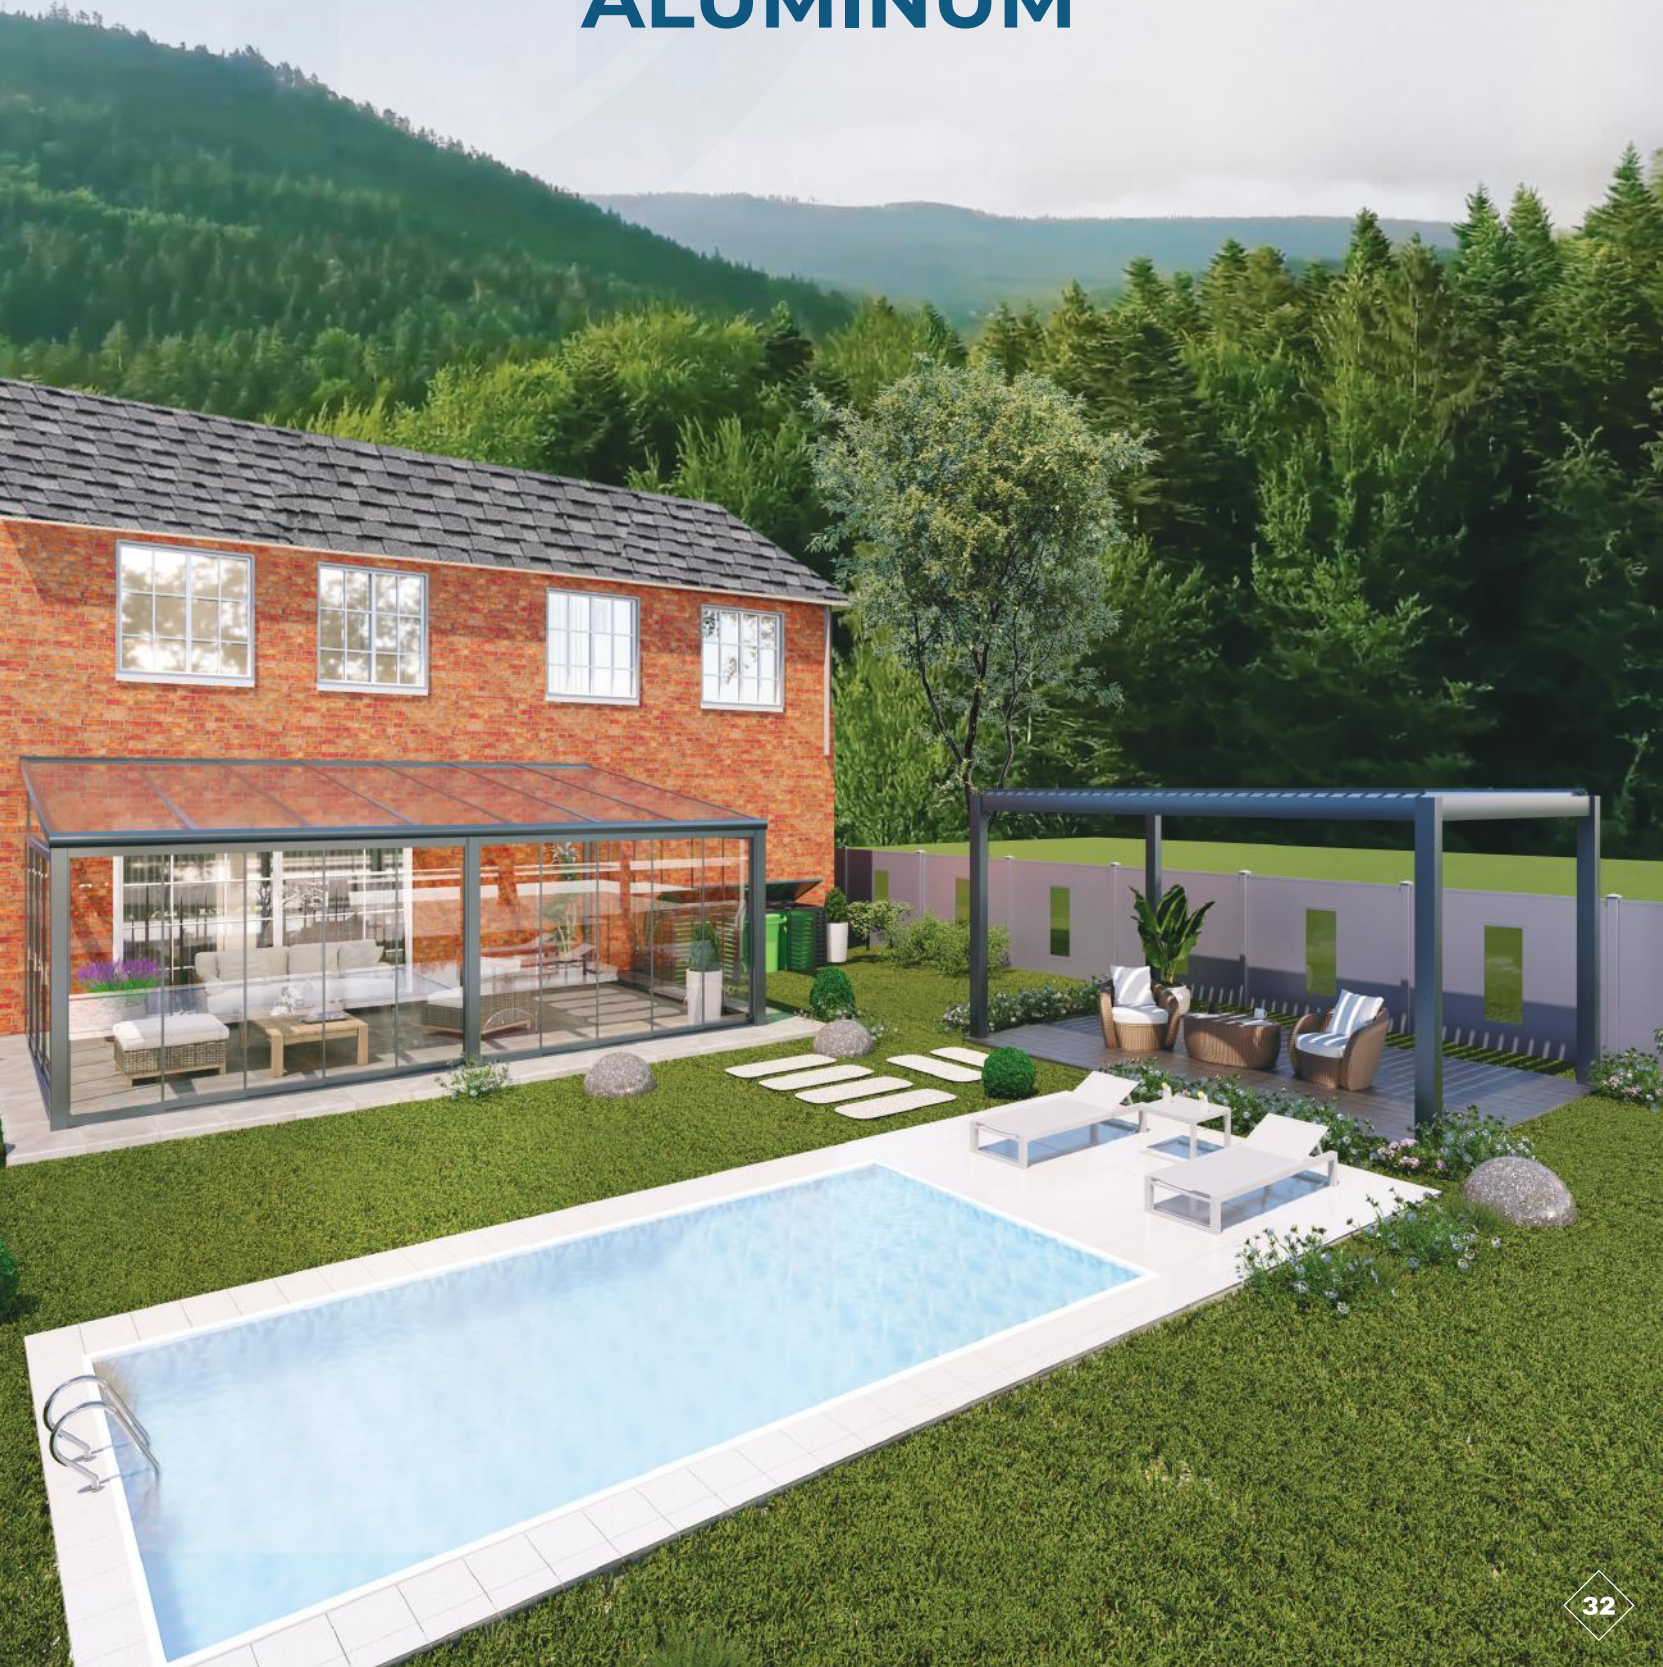

Create a dark and dim environment in places where light is intense or outdoors thanks to Kenan Metal's zip curtain systems. In addition, zip curtain systems provide you with protection from bad weather, while at the same time saving you from spending too much energy.
